AWS Cloud Club Student Community Day Delhi-NCR 2026

Diversity is Cloud Accessibility

Presented by:

Utkarsh Gaur

Cloud Club Captain

AWS Cloud Club at Sharda University

27th March 2026

PROJECT PROFILE

NAME OF PROJECT	AWS Cloud Club Student Community Day Delhi NCR 2026
THEME	Diversity is Cloud Accessibility
DESCRIPTION OF THE PROJECT	AWS Cloud Club Community Days (formerly known as Student Symposia) are one-day, student-led events where the content and logistics are owned by Cloud Club Captains. Student Community Days can be in-person, hybrid, or fully online. Its content should suit your members, focusing on AWS skills and career advice. Student Community Days are a way to bring AWS learning onto campus. The event audience is primarily Cloud Club members but can be extended to non-member students, space permitting. Cloud accessibility means removing barriers that prevent students from different walks of life from learning, experimenting with, and benefiting from AWS and other cloud services. Whether it's financial constraints, lack of access to learning resources, or regional challenges, the advocacy pushes for democratizing AWS cloud education to ensure every student has the tools to succeed.
OBJECTIVES	● Enhance AWS Learning and Skill Development: Organize AWS-focused workshops, tech talks, and hands-on sessions. Provide cloud education tailored for technical and non-technical students, ensuring accessibility across diverse skill levels. ● Expand and Diversify the Cloud Community: Promote inclusivity by encouraging underrepresented groups to participate. Ensure the AWS Cloud Club Community Days are accessible to all students, fostering collaboration among members and non-members alike. ● Bridge the Gap Between Academia and Industry: Invite AWS practitioners and tech-industry

	innovators/leaders to provide career advice and showcase real-world applications of cloud technologies. Connect students to potential internships, job opportunities, and mentorship in the cloud industry. ● Empower Youth-Driven Tech Advocacy and Culture: Foster a vibrant youth culture in technology by encouraging students to utilize AWS for social welfare causes, digital expression, and community-based activities. ● Creating Opportunities for Sustainable Tech Careers (Sustainable Development Goal (SDG) 8: Equip students with skills and resources to drive innovation, entrepreneurship, and career growth in the digital economy. Promote a youth-led culture that promotes inclusive opportunities and sustainable solutions, preparing them for the evolving technology landscape. ● Empowering Innovation and Inclusive Cloud Education Through Sustainable Development Goal 9: Fostering innovation, building resilient cloud infrastructure awareness, and promoting sustainable industrialization through inclusive cloud education. The event will champion Cloud Accessibility, ensuring students regardless of financial, geographical, or technological barriers have the resources and opportunities to learn, experiment with, and benefit from AWS and other cloud services. ● Strengthening Cloud Accessibility Through Strategic Partnerships and Sustainable Development Goal 17: Fostering strong partnerships to enhance Cloud Accessibility for students. This initiative aims to bridge the digital divide by leveraging industry collaborations to provide resources, internet access, and learning opportunities, ensuring that students from diverse
--	---

	backgrounds can explore and benefit from AWS and cloud technologies.
GOAL	1. Make Cloud Education Accessible to All Students: Eliminate financial, regional, and academic barriers to learning AWS technologies. 2. Bridge the Skills Gap with Practical Learning: Provide hands-on workshops, certifications, and real-world AWS training to equip students with job-ready skills through the AWS Innovation Cup, a cloud competition for students hosted by the AWS User Group and AWS Cloud Club. This event is about creativity, problem-solving, and teamwork—challenging students to use AWS cloud services to build solutions for real-world problems. 3. Foster an Inclusive and Collaborative Cloud Community: Encourage diverse participation and create a welcoming environment for all learners. 4. Empower Students for Cloud Careers: Offer career mentoring, networking sessions, and resources to support students pursuing careers in cloud computing. 5. Strengthen Campus Cloud Learning Initiatives: Utilize AWS Student Community Days to deliver cloud learning experiences directly to students on campus.
NOTABLE RESOURCE SPEAKER	TBD
TIMETABLE	Date: March 27, 2026 Time: 9:30 AM - 5:00 PM
VENUE	Block 45, - Anand Swaroop Auditorium - Experiential Learning Centre - 1st Floor

PARTICIPANTS	Delhi NCR Region - Sharda University Students [Open For All] - High School Student teams - AWS Cloud/Learning Clubs - Sharda University Faculty members - Faculty members of invited universities - Sponsors and Partnerships - Facilitators and Organizers
---------------------	--

PROJECT PLAN

STRATEGIES

1. Inclusive Opening and Welcome Address
 - Begin the event with a warm and professional welcome speech emphasizing the importance of cloud accessibility for students of all backgrounds, regardless of financial status, location, or technical expertise.
 - Highlight how AWS Cloud Club fosters a culture of inclusivity and collaboration, empowering students from diverse fields and regions to explore cloud technologies.
 - Acknowledge the contributions of the team, partners, and sponsors, and emphasize their critical role in making the event possible.
2. Inspirational Keynote on Cloud Accessibility
 - Invite an AWS representative and an industry leader to share insights on how AWS technology breaks down barriers to education and innovation.
 - Showcase real-world examples of how cloud computing has helped bridge education gaps, support underprivileged students, and create career opportunities.
 - Feature a compelling student success story to inspire attendees and encourage them to pursue upskilling in the cloud.
 - Invite a Globe representative to deliver a talk on sustainability and its impact on technology and innovation.
3. Advocacy Booths for Diversity in Tech
 - Set up booths for partner organizations that promote diversity, inclusion, and accessibility in technology, such as:
 - TBD
 - Encourage student organizations, industry partners, and advocacy groups to showcase initiatives and opportunities for scholarships, cloud learning, and career development.
4. Networking and Career Development Opportunities
 - Organize structured networking sessions to help students connect with AWS professionals, industry mentors, and fellow students and tech enthusiasts.
 - Facilitate LinkedIn exchanges, mentorship sign-ups, and group discussions to encourage ongoing learning and career exploration.

	● Include Q&A segments to allow students to seek personalized advice on certifications, internships, and project ideas. 5. Mentorship and Career Guidance Panel ● Host a panel discussion featuring AWS professionals, startup founders, and educators to discuss pathways for students from diverse backgrounds to start and grow their cloud careers. ● Cover essential topics such as certifications, internships, cloud-related projects, freelancing opportunities, and entrepreneurship in tech. ● Provide actionable tips and share experiences that resonate with students, making cloud careers more accessible and achievable. 6. Closing Remarks and Call to Action ● Summarize the event's key takeaways, emphasizing the importance of cloud accessibility and the role of diversity in driving innovation. ● Encourage attendees to continue their cloud journey by joining AWS Cloud Club, accessing AWS learning resources, and engaging with the community. ● Conclude with heartfelt gratitude to all attendees, speakers, and partners, and extend an invitation to future events and initiatives.
RESOURCES NEEDED	A. Programs & Event Flow ● Prepare QA platform (e.g., Jamboard, Slido) for interactive audience participation. ● Create a detailed checklist for onsite event execution. B. Finance & Sponsorship ● Budget allocation for event expenses. ● Tokens of appreciation for guest speakers and panelists. ● Prizes for raffles, icebreakers, and engagement activities. C. Storylining & Event Management ● Finalized event script for hosts and speakers. ● Printed script copies (or iPads/tablets) for smooth hosting. ● Time checker to manage session durations. D. Registration and Monitoring Group ● Printed certificates for: ○ Speakers, Captains, and Leads ● Registration materials: ○ Laptop for digital sign-in (Google Sheets) ○ Tables & chairs for registration booth ○ Nametags (Include nickname & pronouns for inclusivity)

	○ Markers for name tag customization ○ Swags (e.g., stickers, pins, keychains) for attendees ● Dedicated volunteers to monitor event attendance & flow. E. Operations & Crowd Management ● Venue floor plan & mapping for different areas (Main hall, breakout rooms, booths). ● Ushers & volunteers to assist attendees. ● Crowd flow control: ○ Direct participants on entry/exit. ○ Manage seating and safety protocols. F. For Documentation and Marketing ● Dedicated camera(s) for high-quality photos ● Tripods ● Gimbal G. For Livestream and Recording: ● Cameras for documentation ● Tripods ● Clicker for presentations ● HDMI cables & adapters ● Extension cords for power access ● Wireless microphone (for clear audio during talks) ● Laptops for tech crew ● Banners & branding materials (standees, posters). H. For Photo Booth and Media ● Dedicated camera(s) for high-quality photos ● Tripod for stable shots ● Lightbox or ring light for professional lighting ● HDMI cables & adapters ● Backdrop (AWS-themed or event branding) ● Laptop for instant photo transfers I. Logistics & Hospitality ● Budget for food & drinks (for attendees, speakers, volunteers). ● Coordinated catering or snack distribution. J. Relations & Communications ● Coordination with Partners (Orgs and Sponsors) ● Email templates for:
--	--

	○ Speaker invitations ○ Event confirmations ○ Thank-you emails ○ Follow-ups for attendees & sponsors.
--	---

Introduction

What is AWS Cloud Club Sharda University?

AWS Cloud Club Sharda University is a student-run technical community at Sharda University that helps students learn cloud computing using Amazon Web Services. The club conducts workshops, hands-on labs, bootcamps, and tech talks where students learn practical skills like cloud architecture, DevOps, AI/ML, and cloud security. It also encourages participation in hackathons and real-world projects, helping students gain industry-relevant experience, teamwork skills, and exposure to modern cloud technologies beyond classroom learning.

In today's rapidly evolving digital landscape, cloud computing has become a cornerstone of innovation, transforming industries and redefining career opportunities. However, access to cloud education remains a challenge for many students due to financial, geographical, and resource limitations.

To bridge this gap, AWS Cloud Club Community Day serves as a student-led initiative dedicated to making cloud education more inclusive, accessible, and impactful. This event provides a platform for students to explore AWS technologies, gain hands-on experience, and receive career guidance from industry experts. By fostering a collaborative learning environment, we empower students to unlock new opportunities, enhance their skills, and build a strong foundation in cloud computing.

With a commitment to "Diversity is Cloud Accessibility," AWS Cloud Club Community Day is more than just an event; it's a movement towards democratizing cloud education and ensuring that every student, regardless of background, has the tools to succeed in the ever-growing tech industry.

What is AWS Cloud Club Student Community Day?

AWS Cloud Club Student Community Day is a one-day, student-led event designed to bring AWS learning opportunities, technical training, and career development directly to students. Led by Cloud Club Captains, the event features interactive workshops, expert talks, and networking sessions to help students gain hands-on experience with AWS technologies and explore cloud computing career pathways.

This event serves as a platform for both Cloud Club members and non-members to develop cloud skills, collaborate with peers, and engage with industry professionals. Whether hosted in-person, hybrid, or online, AWS Cloud Club Student Community Day ensures that students from diverse backgrounds have access to cloud education, mentorship, and career opportunities.

By fostering an inclusive and collaborative learning environment, this event supports the mission of democratizing cloud education, ensuring that every student regardless of financial, regional, or academic barriers has the tools and knowledge to succeed in the cloud industry.

- Student-Led Cloud Learning Event – Organized by Cloud Club Captains, providing students with hands-on AWS learning experiences and career development opportunities.
- Flexible and Accessible Format – Can be conducted in-person, hybrid, or fully online, ensuring inclusivity and accessibility for students from diverse backgrounds.
- Hands-On Technical Training – Features workshops, expert-led sessions, and mentorship programs to enhance practical skills in AWS and cloud computing.
- Career Development and Networking – Connects students with industry professionals, mentors, and fellow learners, offering valuable insights into cloud-related career paths.
- Inclusive Learning Environment – While primarily for Cloud Club members, the event welcomes non-members to expand their knowledge and explore opportunities in cloud technology.
- Bridging the Cloud Skills Gap – Equips students with real-world AWS expertise, preparing them for careers in cloud computing and fostering innovation in the tech industry.

Event Highlights

- **Keynote Address** – Inspirational talk by an AWS expert or industry leader, discussing emerging cloud trends, career opportunities, and the future of AWS technologies.
- **Technical Workshops & Hands-On Labs** – Interactive sessions covering AWS services, cloud computing fundamentals, and real-world applications, providing students with practical skills.
- **Career Development & Mentorship Sessions** – Guidance from AWS professionals and mentors on career pathways, certifications, and industry best practices to help students advance in the cloud domain.
- **Panel Discussion & Industry Insights** – Engaging discussions featuring cloud practitioners, tech leaders, and AWS experts, sharing their experiences and insights into cloud careers and innovations.
- **Networking & Community Building** – Opportunities for students to connect with AWS professionals, fellow learners, and industry experts, fostering collaboration and knowledge sharing.
- **The Advocacy Booth** – Showcasing partnered organizations and their advocacies, reinforcing AWS Cloud Club's mission to democratize cloud education and promote accessibility.
- **Fireside Chat with Cloud Leaders** – A casual yet insightful conversation with AWS professionals and cloud advocates, addressing student questions and industry trends.
- **Closing Ceremony & Recognition** – Summary of key takeaways, certification of participation, and acknowledgments for speakers, organizers, and outstanding participants.

Program Flow

Date	March 27, 2026		
Venue	Block 45, Sharda University		
Time	9:00 AM - 5:00 PM		
Minutes	Start Time	End Time	Program Description
30	9:00 AM	10:00 AM	Registration & Check-in + Soft Start
10	10:00 AM	10:10 AM	Opening Remarks & Event Overview
20	10:10 AM	10:30 AM	Keynote Address – Future of Cloud & Careers
5	10:30 AM	10:35 AM	Energy Reset (Live Poll / Reflection)
35	10:35 AM	11:10 AM	Speaker Session 1 – Cloud Fundamentals
5	11:10 AM	11:15 AM	Transition & Context Framing (MC)
35	11:15 AM	11:50 AM	Speaker Session 2 – Certifications & Career Roadmap
10	11:50 AM	12:00 PM	Ice-Breaker + Audience Q&A
35	12:00 PM	12:35 PM	Speaker Session 3 – Real-World AWS Use Cases
45	12:35 PM	1:20 PM	Lunch Break + Guided Networking

40	1:20 PM	2:00 PM	Panel Discussion – Industry Insights (2 Speakers)
120	1:20 PM	3:00 PM	2 PARALLEL TECHNICAL WORKSHOP (2 Hours – Separate Hall)
10	2:00 PM	2:10 PM	Reflection & Poll
35	2:10 PM	2:45 PM	Speaker Session 4 – GenAI / Advanced Cloud
40	2:45 PM	3:25 PM	Fireside Chat – Career Journeys
10	3:25 PM	3:35 PM	Ice-Breaker + Raffle
10	3:35 PM	3:45 PM	Recognition & Gamification Awards
10	3:45 PM	3:55 PM	Closing Remarks & Next Steps
65	3:55 PM	5:00 PM	Networking, Photos & Speaker Interaction

Technical Workshop

Date	27 March 2026		
Venue	Block 45, Sharda University		
Time	TBD		
Minutes	Start Time	End Time	Workshop Activity
10	1:00 PM	1:10 PM	Registration & Technical Setup
10	1:10 PM	1:20 PM	Workshop Introduction & Objectives
15	1:20 PM	1:35 PM	Concept Overview
15	1:35 PM	1:50 PM	Tool / Platform Walkthrough
25	1:50 PM	2:15 PM	Hands-on Activity – Part 1
5	2:15 PM	2:20 PM	Buffer / Short Break
25	2:20 PM	2:45 PM	Hands-on Activity – Part 2
10	2:45 PM	2:55 PM	Review & Output Explanation
5	2:55 PM	3:00 PM	Q&A & Closing

Event Requests and Confirmation

1. Food and Snacks

Could you kindly confirm if food and snacks will be provided by Sharda University for AWS booth representatives, and attendees during the event? Additionally, we would appreciate it if you could confirm whether the catering arrangements will include refreshments during breaks and lunch for all participants throughout the event, including those representing the booths.

2. Venue Setup and Requirements

Please confirm if _____ will be providing and assisting in setting up the required booths, tables, and seating arrangements for the event. This includes audio-visual equipment for presentations, projectors, and microphones for the workshop sessions.

3. Parking and Accessibility

Will there be designated parking spaces for AWS Cloud Club organizers and booth participants? Also, can you confirm if the venue will be fully accessible to all attendees, including those with mobility challenges?

4. Security and Onsite Support

We request clarification on the security arrangements for the venue to ensure a safe and well-coordinated event. Will there be on-site support staff or volunteers to help with logistics and attendee guidance?

5. Health and Safety Protocols

Given the size of the event, we also need to confirm any health and safety protocols that need to be observed, such as social distancing, sanitation, and mask-wearing policies, if applicable.

6. Reliable Internet Connectivity

Given the nature of the event, which will involve live streaming, reliable internet connectivity is critical. We need to request confirmation if the venue will provide high-speed, stable internet access for both the workshop participants and booth exhibitors? We also need to know the capacity of the network to ensure smooth execution.

Committees

To ensure that different aspects of the event are given proper attention, committees have been established, with each having their specific scope of responsibilities. Each committee will have 2 heads to oversee their internal operations, assign personnel, and communicate with the Community Day Heads. All committees will be supervised by the event heads.

Community Day Heads (ComDay Heads)

The Managers will be responsible for all other requirements of the event including, but not limited to:

- Overseeing the financial status of the event.->finance lead
- Supervising the project.
- Finalizing the modality of the event.
- Assigning the heads for each committee.
- Supervise the outflow of the event's budget.
- Approve the final documents for the event (e.g. Primer, Handbook, Sponsor packages, etc.)

Finance Team

The Finance Team will be responsible for managing the club's financial resources, ensuring proper budgeting, and securing necessary sponsorships and funding. This committee plays a crucial role in sustaining the club's initiatives by handling financial planning, expense tracking, and resource allocation. Their responsibilities include:

- Developing and managing the budget for events and initiatives.
- Tracking expenses and ensuring financial transparency.
- Securing sponsorships and partnerships to support club activities.
- Coordinating fundraising efforts and resource acquisition.
- Managing financial documentation and reports.

Roles:

- Head of Finance Team: Oversees financial planning, budgeting, and resource allocation.
- Resource Allocation Officer: Manages procurement, distribution, and inventory of resources, including AWS credits.
- Finance and Audit Manager: Manages financial transactions, expense tracking, and financial reporting.

Attendee Experience Team

The Attendee Experience Team will be responsible for ensuring a smooth, engaging, and memorable experience for all participants during club events and initiatives. This team plays a crucial role in managing attendee interactions, coordinating logistics, and maintaining a positive environment throughout the event lifecycle. Their responsibilities include:

- Managing attendee registration, check-ins, and onboarding processes.
- Ensuring smooth coordination during events to address attendee needs and concerns.
- Collecting and analyzing feedback to improve future events.
- Assisting with seating, crowd management, and on-ground support.
- Coordinating with other teams to ensure a seamless event experience.

Roles:

- Head of Attendee Experience Team: Oversees overall attendee engagement, planning, and coordination.
- Registration & Onboarding Officer: Manages attendee registrations, confirmations, and check-in processes.
- Engagement & Support Manager: Handles attendee queries, feedback collection, and on-ground assistance during events.

Sponsorship Team

The Sponsorship Team is responsible for securing external support to strengthen the club's initiatives. This committee plays a vital role in ensuring the club has the necessary partnerships, sponsorships, and funding to sustain and expand its activities. The team focuses on building strong relationships with potential sponsors, maintaining transparent communication, and coordinating outreach strategies.

- Identifying potential sponsors and partnership opportunities.
- Preparing sponsorship proposals and partnership pitches.
- Maintaining relationships with existing sponsors and ensuring proper communication.
- Coordinating sponsorship-related events, deliverables, and follow-up commitments.
- Ensuring transparency in sponsorship agreements and tracking sponsor contributions.

Roles

- Head of Sponsorship Team: Oversees sponsorship strategy, outreach planning, and partnership development. Ensures goals are met and aligns sponsorship efforts with club initiatives.
- Partnership Acquisition Officer: Leads the identification and acquisition of new sponsors. Manages outreach, prepares proposals, and negotiates partnership terms.
- Sponsorship Relations & Compliance Manager: Manages relationships with existing sponsors, ensures all agreed benefits are delivered, and maintains documentation, communication records, and reports

Community & Partnerships Team

The Community & Partnerships Team will be responsible for identifying, engaging, and collaborating with student communities, technical clubs, and external organizations to establish strategic partnerships for the Cloud Day event. This committee plays a crucial role in expanding event reach, increasing participation, and creating a collaborative ecosystem by connecting with relevant communities and institutions.

Their responsibilities include:

- Identifying and partnering with technical clubs and student communities for Cloud Day.
- Coordinating joint promotions, activities, and speaker sessions.
- Managing communication and relationships with partner clubs.
- Supporting outreach and participation across partner communities.
- Maintaining records of partnerships and collaboration details.

Roles:

- Head of Community & Partnerships Team: Leads partnership strategy and oversees all external coordination for the Cloud Day event.
- Community Outreach Officer: Identifies and connects with technical clubs and student communities for collaborations and promotions.

Programs and Management Committee (Programs)

The programs committee will work closely with the event heads and will serve as the main head of the event for planning and preparation. As the committee responsible for the event's agenda, they will also manage the technicals, hosts, and speaker coordination.

Responsibilities:

- Finalize the event's timeline and agenda.
- Ensure the proper execution of the event's timeline.
- Initiate coordination between different committees.
- Keep track of tasks for each committee.
- Coordinate with the speakers.

Roles:

- Head of Programs and Management: Oversees event planning, timeline, logistics, execution, speaker coordination and coordination across all committees.
- Stage Manager: Manages the stage operations during events, ensuring smooth transitions between sessions.
- Host Coordinator: Responsible for managing and overseeing the hosting aspects of an event, ensuring smooth transitions and engaging interactions between the hosts, speakers, and audience.
- Speaker Liaison: Handles communication, scheduling, and requirements for speakers.
- Technical Lead: Oversees AV equipment, lighting, and tech support for the event.

Team:

- Technical: Manages AV equipment, presentations, and tech support.

Logistics Committee

The operations committee will act as the main manpower and staff for the event.

Responsibilities:

- Facilitate registration for the event.
- Facilitate the equal and proper distribution of giveaways/swags to the attendees.
- Control the flow of the crowd to avoid overpopulation and related concerns.
- Assist the attendees in navigating the venue.
- Stand by for emergency purchase of supplies needed.

Roles:

- Head of Operations: Connects with logistics, oversees registration, hospitality, security, and overall coordination.
- Co-Head of Operations: Assists in overseeing logistics, registration, security, and event coordination.

- Logistics Lead: Oversees transportation, venue setup, and distribution of materials.
- Registration Lead: Manages attendee check-in, ticketing, and event credentials.
- Ushering Lead: Supervises ushers and ensures smooth attendee movement and assistance.
- Security and Safety Lead: Oversees crowd control, safety protocols, and emergency response planning.

Team:

- Logistics: Manages transportation, venue setup, and material distribution.
- Registrations: Handles attendee check-in, ticketing, and event credentials.
- Ushers: Guides attendees, controls crowd flow, and assists with navigation.
- Security and Safety: Ensures crowd control, emergency response, and overall event safety.

Marketing and Media Committee

The team will be working to provide any necessary design requirements. The marketing Section will act as the main driving force for the event's branding, engagement, and reach. They will aim to make as many people aware of the event.

Responsibilities:

- To create high-quality publication materials and audio-visual graphics.
- Work with the event heads to create custom designs for the giveaways to the attendees and tokens for the speakers.
- Ensure all visual assets align with the event's branding and overall theme.
- Raise awareness about the event.
- Induce excitement for the registered attendees.
- Create a marketing calendar for the scheduled postings and publication materials.
- Work closely with the creatives committee to produce high-quality publication materials.
- Oversee the proper execution of the marketing calendar.
- Ensure we are in standard of branding in terms of publications, assets, and social media engagements.

Roles:

- Head for Graphics Team: Leads the graphics team and oversees all design-related tasks.
- Head for Marketing: Leads the overall marketing strategy and execution.
- Head for Media/Documentation Team: Manages the recording and archiving of event proceedings.

Team:

- Layout Artist: Designs structured and visually appealing layouts for publication materials.
- Illustrator: Creates custom illustrations and assets for event materials, working closely with the Event Heads.
- Animator: Produces motion graphics and animations for promotional content and presentations.
- Photographer: Captures event moments through high-quality images.
- Videographer: Records and produces video coverage of the event.
- Video Editor: Edits and enhances video content for events, promotions, and social media while ensuring quality and brand consistency.
- Content Team: Creates engaging content on various platforms, including social media, focusing on aligning content with the organization's goals. The team focuses on crafting compelling narratives and messages that resonate.
- Social Media Coordinator: Manages social media accounts, schedules posts, engages with the audience, and analyzes performance metrics to optimize online presence.

Please note that the program flow is subject to change, but we remain committed to conducting the event from 9 AM to 5 PM.

Event Guidelines:

Identification and Dress Code:

- Bring a government-issued or valid ID for entry.
- Adhere to the smart casual dress code; avoid shorts and open-toed shoes.

Engagement and Networking:

- Actively participate in networking sessions; initiate conversations.
- Respect speakers; save questions for designated Q&A sessions.

Volume and Environment:

- Maintain a moderate speaking volume; avoid disruptions.
- Keep the venue clean; refrain from littering and loitering.

Attitude and Respect:

- Maintain an open-minded attitude.
- Respect venue rules for safety and comfort.

Belongings and Security:

- Watch personal belongings; organizers are not liable for losses.

Punctuality and Updates:

- Arrive promptly; stay informed about schedule changes.
- Check AWS Cloud Club Sharda University linkedin page for event announcements.

Food Reminder:

- Eat lunch before the event; snacks are provided during the event.
